

EURAXESS – Researchers in Motion: The way towards problem solving

What is EURAXESS?

EURAXESS is an ERA key initiative to promote research careers and facilitate the mobility of researchers across Europe.

EURAXESS: European Union & 40 countries in Europe working together to assist researchers and research organisations!

Information about jobs & funding opportunities

Personalised assistance to researchers & their families through a network of > 500 people in **40** countries

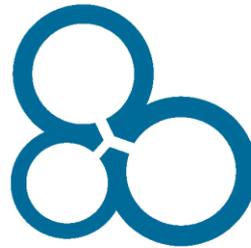

Information about **rights and obligations** of researchers, their employers and funders, including entry conditions, social security and pensions

Networking tool for European & non-EU researchers worldwide

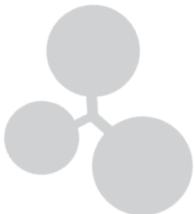

euraxess

JOBS

- ~ 4,000 research job positions/ > 1,000 funding offers **daily available**;
- > 7,000 research organisations (companies, universities and SMEs across Europe and beyond) registered on EURAXESS with access to
- ~ 20,000 active CVs of researchers who uploaded their CV to the attention of potential employers;
- ~ 65,000 researcher accounts created so far;
- Job and funding opportunities covering a **vast array of research fields**;
- EU funded (MCA, ERC) jobs & funding opportunities systematically published there

- Collaborations with **relevant national/international job platforms and boards** to:
 - Provide researchers with **more and more job opportunities** in Europe to look at, and
 - Enhancing significantly publishing organisations' **visibility**
- Some examples: **Naturejobs** (UK), Focus Research (BE), Galaxie (FR), Euro*jobsciences (BE), INRA (FR), CINECA (IT), AcademicTransfer (NL), UniversityPositions (SE), Academic Positions (SE), and many more coming soon...

- Specific "search directory" for MCA (jobs & fellowships, incl. Cofund)
- MCA logo & URLs
- Monthly MCA Cofund statistics
- Indication of SESAM Agreement Nr (optional)

The screenshot displays the EURAXESS Jobs website interface. The browser address bar shows the URL <http://ec.europa.eu/euraxess/index.cfm/jobs/jSearch>. The page features a search bar with the text "By Free Text Search" and a "Search" button. Below the search bar, the "Search Results" section indicates "159 results found (1-15 Displayed)". A navigation bar shows "View the results as: List Map" and a pagination control with "First", "Previous", "1", "2", "3", "4", "5", "6", "7", "8", "9", "10", "11", "Next", and "Last".

The main content area displays three job listings:

- Post-doc in Physics**: We are opening a position at Lund University as Postdoctoral Researcher within a project aiming to temporarily resolve photo-induced molecular dynamics through photoelectron diffraction and interference using soft-X-ray laser [...]. 05/09/2012 - 12:58 | Country: Sweden | Organisation: Lund University | Research field: Physics | Application deadline: 27/09/2012 | Nr. of offers: 1
- PhD position (ESR2) Marie Curie ITN TRACENTREAT: Synthesis of new and modification of conventional polymers and ligands to accommodate metal entities**: This position is part of the Marie Curie Initial Training Network TRACENTREAT. This project aims to train eight starting researchers to become highly-qualified, health-associated professionals and contribute in the fight [...]. 04/09/2012 - 09:28 | Country: Belgium | Organisation: Delft University of Technology, Reactor Institute Delft | Research field: Chemistry | Application deadline: 18/01/2013 | Nr. of offers: 1
- PhD position (ESR7) Marie Curie ITN TRACENTREAT: Development of self-assembled nano-carriers based on commercially available block copolymers**: This position is part of the Marie Curie Initial Training Network TRACENTREAT. This project aims to train eight starting researchers to become highly-qualified, health-associated professionals and contribute in the fight [...]. 04/09/2012 - 09:28 | Country: France | Organisation: Delft University of Technology, Reactor Institute Delft | Research field: Chemistry | Application deadline: 18/01/2013 | Nr. of offers: 1
- Bioinformatics modeling of proteomic changes in bladder cancer invasion**: This offer for a PhD position (ESR2) is part of the FP7 EID (European Industrial Doctorate program) BCMoMed, integrating multi-disciplinary expertise from academic and industrial investigators as state of the [...]. 03/09/2012 - 17:55 | Country: Germany | Organisation: Hlssaiques Diagnostics GmbH | Research field: Computer science | Application deadline: 31/10/2012 | Nr. of offers: 1
- Proteome analysis of bladder cancer invasion**: This offer for a PhD position (ESR2) is part of the FP7 EID (European Industrial Doctorate program) BCMoMed, integrating multi-disciplinary expertise from academic and industrial investigators as state of the [...].

The right sidebar contains a "Refine By" section with filters for Research field, Country, Publishing Organisation, EU Research Framework Programme, Marie Curie Actions, Research Profile, and Distance.

euraxess

SERVICES

- A network of > 500 people working in > 200 offices across Europe (40 countries) providing researchers & their family with personalised assistance and welcoming them in their new host country;
- ~ 500,000 queries in 4 yrs period
- Topic ranking: funding opportunities; entry conditions; accommodation
- 2011: ~150,000 queries
- Topic ranking: funding, accommodation, entry conditions.
«New entries»: pensions rights & medical care

Everything researchers, their employers and funders should know about researchers' rights and obligations!

~ 455 individual endorsements of the Charter & Code principles:

They represent ~ 1,200 research institutions and funders from 35 countries in Europe (MS and AC) + 1 beyond (i.e. RU) + various International European Interest Organisations (e.g. CERN).

The **'Human Resources Excellence in Research' badge** is awarded to institutions that have made significant progress in implementing the Charter & Code (so far 105 institutions from 18 countries have been awarded, and more are in the pipeline).

The badge is displayed on the adverts they publish on EURAXESS Jobs

HR EXCELLENCE IN RESEARCH

EURAXESS Rights

Social security and pension rights

What happens when researchers move? What can and cannot be transferred? What is regulated at EU level and what is regulated at national level? This can be found on EURAXESS Rights.

Entry conditions

Non-EU national (or "third country national") researchers have several possibilities to enter the European Union for work. The **Scientific Visa Package** aims to facilitate third country researchers' entry conditions. The **Blue Card Directive** is more recent, and deals with the entry into the EU for the purposes of highly qualified employment.

This information is complemented and actively dealt with by the EURAXESS Service Centres!

EURAXESS Links

A networking tool for European and non-EU researchers working outside Europe. It exists in:

- USA
- Japan
- China
- India
- Singapore (by end 2012 part of the first EURAXESS Links Hub: EURAXESS Links ASEAN)
- more to come in 2013

And aims at keeping European researchers linked amongst themselves and to Europe, by providing information about research in Europe, European research policies, opportunities for research funding, for international collaboration and for trans-national mobility.

What can EURAXESS do

- EURAXESS brings solutions!
- It helps boosting researcher career development;
- It helps researchers at an early stage research career with finding a job, helps them with their move, helps them connect with other researchers experiencing similar challenges;
- It assists experienced researchers with posting job vacancies, finding a good candidate, acquiring funding for their projects, getting a better understanding of their rights;
- EURAXESS can significantly enhance job and funding providers' visibility in Europe and overseas

EURAXESS is web-supported!
